

## INVITATION

ISASF is happy to welcome you at the

**12<sup>th</sup> International Symposium  
on Supercritical Fluids**  
to be held in **ANTIBES-JUAN-LES-PINS**  
on **22-25 April 2018**.

## SCOPE

Thirty years after the first symposium held in NICE, supercritical fluid technology is no longer a “curiosity” but is reaching its industrial age, the more because of the growing demand for processes and products compatible with a **sustainable development** saving both energy and raw materials, and limiting any type of long-life residues while delivering “safe” products.

This 12<sup>th</sup> international symposium will be focused on the most recent scientific and technological development. A large place will be proposed to **case studies** showing the ways taken to transform laboratory experiments into manufacturing innovative products in all types of industrial applications:

- Food and nutraceuticals
- Cosmetics and perfumes
- Pharmaceuticals
- Medical devices and implants
- New bioanalysers
- Electronic micro-/nano-systems
- Insulation and building materials
- Ceramics and polymers
- Defence applications
- Waste destruction and recycling
- Green chemistry
- .....and any other “exotic” application!

## IMPORTANT DEADLINES

**Abstract submission: 30/11/2017**

**Full text: 15/02/2018**  
(max. 8 pages per communication).

## ABSTRACT SUBMISSION

An abstract of less than 300 words should be sent before 30/11/2017 to  
[michel.perrut@atelier-fsc.com](mailto:michel.perrut@atelier-fsc.com)  
The abstract must be accompanied by a registration form and payment should follow upon receiving ISASF invoice.

*When submitting the abstract, please state if you prefer to present your paper as an oral communication or a poster.*

## ABSTRACTS BOOKLET and PROCEEDINGS

The **Abstracts** booklet will be published in advance and delivered to the participants on registration of the conference with the complete **e.Proceedings** (USB key).

Instructions will be available on the ISASF website: [www.isasf.net](http://www.isasf.net)
